

# Carolina Mountain Mission

*What we do today echoes into eternity!*

## **Ministry Description**

After 32 years of providing students with unique and exciting mission trips, our focus is to extend it to the whole family. It is our intent to lend everyone a turn-key missions experience that will stretch them mentally, physically, and spiritually. Through this, we have seen two positive long-term effects. Participants discover their absolute deep need for Christ and they walk away with a better understanding of who Christ has created them to be. Not to mention when you mix missions and summer camp it's just an absolute blast. An itinerary is available online at [www.thumbprintministries.com](http://www.thumbprintministries.com)
